

Companies come to BlackLine because their traditional manual accounting processes are not sustainable. Our cloud-based financial operations management platform and market-leading customer service help companies move to modern accounting by unifying their data and processes, automating repetitive work, and driving accountability through visibility.

## Your Foundation for Financial Operations Excellence

Unprecedented demand for finance and accounting leaders to be more strategic, coupled with increasing uncertainty, are placing unsustainable pressure on accounting teams, processes, and technology. BlackLine's solutions for financial close management, accounts receivable automation, and intercompany accounting enable large enterprises and midsize companies to do accounting work better, faster, and with more control.

By integrating, orchestrating, and automating high-value accounting processes that often sit at the intersection of ERPs, subledgers, teams, and business units, BlackLine provides a shared data, integration, and automation foundation to help elevate accounting operations, so finance and accounting teams can focus on what matters the most.

More than 4,000 companies trust BlackLine to help them close faster with complete and accurate results.

## It's Time to Move to Modern Accounting

Modern accounting is unified, automated, and continuous. We help companies embrace modern accounting by unifying data and processes and increasing visibility to deliver accurate results faster. We enable automation of routine work to allow you to focus on risk areas and strategic initiatives. And, by enabling Continuous Accounting, we empower you to support and guide the business in real time.

In other words, we help companies like yours stop the work they shouldn't be doing, avoid the errors they shouldn't be making, and better use their time—and our Collaborative Accounting Experience helps you get there quickly.
