Unify all your spend in a single global platform. [Learn more](#) about Brex Empower.

One spend platform, total control.

A global spend management platform built from the ground up to drive a company wide mindset shift through the right controls at scale.

✓ Automated compliance

End the month-end hassle with an experience so easy, employees actually comply — so you can close the books faster.

🕒 Real-time accountability

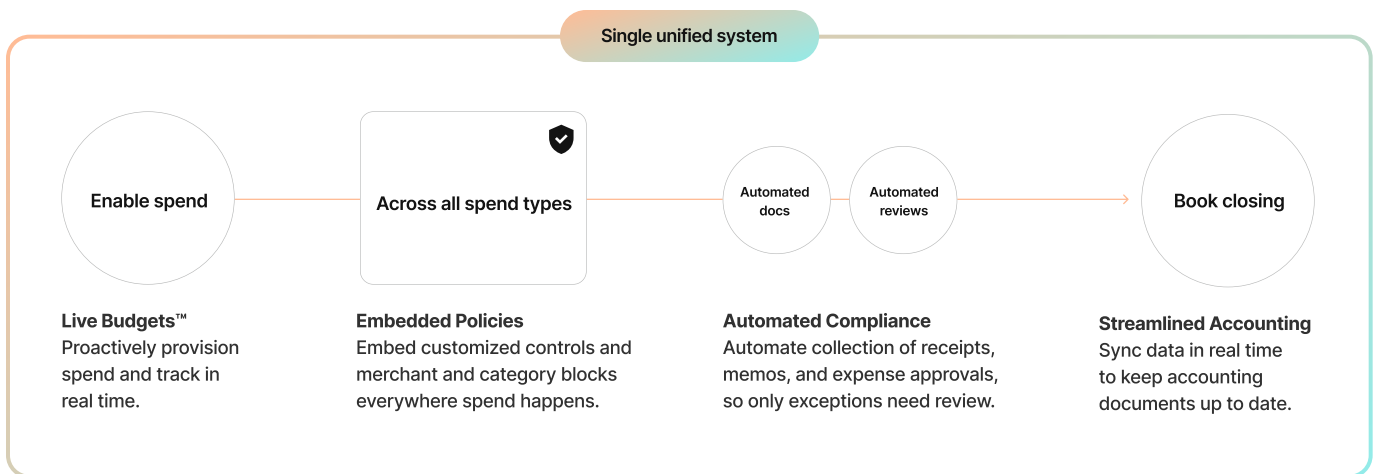

Put an end to blown budgets and surprises — with Live Budgets™ that let you track and adjust spend in real time to increase accountability.

🌐 Global consistency

Stop struggling to support global teams and processes. Streamline operations with global compatibility and consistency in 100+ countries.

How Empower works

Close the books faster with proactive controls, embedded policies, automated expense reports, and real-time reporting - for total visibility and control.

“Brex is our critical finance tech stack and allows us to do more with the resources we have. We can make better decisions about where we should be spending and steer the company in the right direction.”

— Andrew Maher, Head of Finance, Superhuman
