

The background of the top section is a blurred photograph of a city street with tall buildings and a streetcar. A blue horizontal bar is overlaid on the top part of this image, containing the "Who is Sovos?" header.

## Who is Sovos?

Sovos is a global company capable of meeting your tax and regulatory compliance needs anywhere you do business. Tax should never be an impediment to business success. Whether your goal is greater efficiency or growth, we provide you with the tools and services to improve processes and scale your operations.

*What this means for your sales and use tax needs:*

### End-to-end compliance

---

Backed by the Sovos Intelligent Compliance Cloud and S1 Architecture, Global Tax Determination delivers instant tax calculations even during peak transactional periods. Our fully integrated solution systematically manages your sales and use tax processes.

### A qualified regulatory team

---

Tax professionals, lawyers and CPAs comprise our regulatory team that is second to none. Our experts have established relationships with the different state and local jurisdictions and departments of revenue to ensure we are always current and clear on regulatory compliance changes.

### Cloud infrastructure

---

Sovos' Cloud infrastructure is the world's first complete solution for modern tax. It combines traditional tax determination and reporting tools for sales and use tax with modern, digital reporting and e-invoicing compliance software.

### Innovative approach to technology

---

We make it incredibly easy for software system integrators, providers and customers to connect to our Sovos-built API.

### Implementation methodology

---

Every client has a project manager and designated technical resources, ensuring personalized support through the entire implementation process and beyond.

### Top-tier support model

---

Sovos provides 100% in-house staff, domestic support and a managed services team, devoted to helping clients succeed.

### End-to-end compliance:

Sovos' **Global Tax Determination** ensures that clients charge their customers correct sales tax on every transaction. Our **CertManager** maintains valid, updated and easily accessible exemption certificates. **Sovos Use Tax Manager** gets fast, accurate use tax self-assessments and easily confirms suppliers have charged clients the correct tax. With Sovos' **Sales and Use Tax Filing software**, we ensure that clients accurately file and remit the sales tax they collect in all jurisdictions.

### A qualified regulatory team:

Our regulatory team is comprised of over 50 regulatory and legal experts, specializing in sales tax reporting and compliance. The team is led by sales and use tax expert Chuck Maniace, a respected industry voice routinely appearing in publications such as the Wall Street Journal, **Forbes** and Bloomberg. Chuck has been listed among **Accounting Today's Top 100 Most Influential people** for 2019 and 2020.

### Cloud infrastructure:

Our **S1 cloud platform** enables Sovos to do the hard work for businesses, handling their compliance across all financial systems, while supporting them with highly reliable, scalable and secure cloud infrastructure.

Sovos' SaaS platform has multiple physical data centers that deliver data where needed and has a fully redundant, best-of-breed architecture stack. Having achieved the state of Active/Active, quote and audit calls flow seamlessly through both Sovos' primary and secondary data centers while automated checks analyze each data center and direct traffic appropriately. Our platform also offers 24/7 monitoring with full transparency and is backed by a global cloud operations team.

### Security:

Sovos is ISO 27001 Certified, with 360-degree scanning and monitoring. We have SSAE 16 SOC 2 certified facilities and a dedicated SOC team performing advanced detection and prevention. Sovos also has continuous vulnerability scanning and regular penetration testing.

### Innovative technology:

Sovos has identified specific systems that are critical to our clients' success and we have worked closely with those systems to build out and certify integrations. We recognize we can't be an expert in all systems, which is why we make it incredibly easy for software system integrators, providers and customers to connect to our Sovos-built API. Additionally, Sovos was the first to reach co-innovation status with SAP for the Cloud Essentials offering.

### Implementation methodology:

With an assigned project manager and designated technical resources, clients can rest assured that we will work together to align on business goals, requirements and systems to form a project plan. Sovos has proven experience with partners in the industry to assist on implementations.

### Top-tier support:

From a client's first Sovos encounter to implementation and beyond, they have a dedicated Sovos team to ensure they are fully supported. A client's team includes an account executive, customer success representatives, technical account managers and a regulatory team for informative tax discussions. We ensure there are different levels of support available to meet your needs.

## About Sovos

Sovos was built to solve the complexities of the digital transformation of tax, with complete, connected offerings for tax determination, continuous transaction control compliance, tax reporting and more. The company supports more than 12,000 customers operating in over 70 countries, including half of the Fortune 500. Its SaaS products and proprietary Sovos S1 Platform integrate with a wide variety of business applications and government compliance processes. Sovos has employees throughout the Americas and Europe, and is owned by Hg and TA Associates.
